GENERAL INFORMATION: Business Cards

Imprint Processes

Full Color Process - Flat and Raised

Full color process printing combines four basic colors—cyan, magenta, yellow, and black—to create multiple colors and a lasting impression. Full color raised printing adds texture and dimension.

Standard and PMS Inks

Standard inks are ink colors that are most commonly used. Samples of standard inks can be found in the Stationery Swatch Book. Standard ink colors include: Black, Brown, Burgundy, Dark Blue, Green, Gray, Light Blue, Red, Reflex Blue, and Teal.

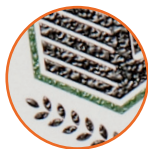

PMS inks are any specific ink numbers requested from the PANTONE MATCHING SYSTEM®, Pantone Inc.'s check-standard trademark for color reproduction and color reproduction materials. Use the standard and PMS ink category on the price grid for the paper you've selected when ordering these ink colors.

Flat Printing

Flat printing, also called lithography, is a printing process in which the image area is neither raised nor depressed.

Offset printing presses are most often used to transfer the image from a plate to a rubber blanket. The image is then printed from the blanket on the printing press to the paper.

Raised Printing

Sometimes known as thermography, raised printing is a process in which a special powder is applied to the ink after the ink has been applied to the paper. The paper is then run through a heat source which causes the ink to "rise." All orders will print with raised ink unless another process is specified or the product is listed otherwise.

Foil Stamping

Foil stamping, also known as hot stamping, is a process that uses heat and pressure along with metallic foil material to stamp a design or text onto paper. The look of the finished product is similar to ink but is generally very shiny in appearance. This process is done using a metallic die and is one dimensional (flat). When ordering, use the foil stamping or ink with foil stamping upcharge on the price grids for the paper you've selected.

Foil Embossing

Foil embossing, also referred to as hot leaf embossing, is a combination of both the embossing and foil stamping process. This can be done in two steps (as illustrated in the individual definitions of "embossing" and "foil stamping") or in one step using a foil emboss, or "hot leaf emboss," die. A foil embossing die can be single or multilevel. This process requires both heat and pressure to push the design through the back of the paper into the foil and die at the same time. The resulting effect is a raised metallic image on the front of the paper.

Blind Embossing

Embossing is an ink free process in which a design or text is pushed into the back of the paper using pressure. This is typically done using a metallic die and a counter die. The counter die forces the paper into the shape of the die from the back side of the paper. The resulting appearance of the front of the paper is a raised representation of the intended design. This design can either be single level (one dimensional raised design) or multiple level (three-dimensional design created with a brass die). This process can also be done with ink or foil and can, in some instances, be in register with these processes; contact us for registration between embossing and other specialty print processes.

Blind Debossing

Debossing is an ink free process similar to embossing. However, instead of pressing a design from the back of the stock to create a raised image, debossing presses the design into the stock to create an image depressed into the stock. This process can also be done with ink or foil and can, in some instances, be in register with these processes; contact us for registration between embossing and other specialty print processes. Contact us for single or multilevel brass dies or debossing in combination with any other specialty print processes.

Engraving

Engraving is a process that resembles embossing in nature and uses pressure and ink. A die with an image or text etched into it is coated with ink. The excess ink around the non-imaging area of the die is wiped clean. The remaining ink resides only in the printable area of the die. This image is then pressed into the front of the paper. The resulting appearance is a slightly raised ink. Contact us for engraving.

Enhanced Finishes: Spot Gloss

Used to add a touch of shine to your full color design, Spot Gloss can be used to create shining designs on its own or can enhance elements of your design with a glossy finish.

Enhanced Finishes: Raised Spot Gloss

Bring spot gloss to a new level! Not only does Raised Spot Gloss add an element of shine to your full color design, it adds depth that makes those design elements stand out even more.

Enhanced Finishes: Raised Foil

With a look similar to foil embossing, Raised Foil brings depth and shine to your full color design. Add Raised Foil for a touch of raised metallic shine in your choice of nine different colors.

For more information about these processes, please contact us.

General Information for Manual Catalog Orders

Art Charges

Art charges will apply for layouts requiring special attention, i.e. artwork that is unsuitable for reproduction, logos requiring color separation, or disks that contain files that are not print ready and require manipulation. If you need scanning or design and typesetting performed, contact us for details on prep charges.

Art charges apply in addition to standard setup charges for manual orders. Setup charges include basic file checks including margins, bleeds, embedded/outlined fonts, and resolution of raster images.

NOTE: Add two production days for typesetting and design to the production time of the product. Listed production times will begin after artwork approval.

Back Copy on Spot Color Business Cards

Copy printed on the backside of a business card will be flat printed. Raised print is not available.

	500	1,000	Add'l 500
1 Ink	\$44.20	\$49.80	\$7.10
2 Inks	\$59.90	\$65.50	\$7.10

(R) Production time: 1 additional working day for back copy. If back copy ink color is different than front copy, contact us for details.

Bleeds on Spot Color Business Cards

A bleed is a printed image that extends off the edge of the paper. Artwork should exceed 1/8" beyond the paper size, on each side.

	500	1,000	Add'l 500
Standard & PMS Inks	\$9.75	\$9.75	\$3.25

(R) Prices shown are per edge.

Request a quote for bleeds:

- if more than 2 edges bleed
- if bleed area exceeds 1/8" in thickness

Margin Requirements

Business cards require a 1/8" margin on each side.

Master Business Card Program

Maintain your corporate image and save money and time. We print your "Master", consisting of your company name and standard company information. We hold the printed Masters and imprint with individual names and information as needed. The minimum quantity for Master Business Cards runs is as low as 10,000. Personalized imprints can be ordered in quantities of 250, 500, or 1,000. Contact us for details.

Multiple Lot Business Cards (Volume Discount)

Multiple lot discounts are available with text changes or omissions. Changes in registration, logos, bleeds, ink, stock, etc. will be priced as separate orders. Contact us for details.

Oversized and Undersized Business Cards

Standard Business Cards measure 3 1/2" x 2". Special card sizes measuring 1" x 2 1/2" up to 4" x 4" are available. Contact us for more details.

Registration

Registration is when two inks or foils come within 1/16" or touch.

Request a quote on registration between:

- 3 or more ink or foil colors
- Ink and foil stamping
- Ink and foil embossing
- Ink and blind embossing
- Ink and die cutting
- Flat and thermography
- Engraving or letterpress
- and any other process

	500	1,000	Add'l 500
Registration between 2 inks	FREE	FREE	FREE
Registration between 2 foils	\$40.00	\$40.00	\$6.75

(R)

Round Corners

	50-250	500	1,000	2,000	2,500	5,000	10,000
Round Corners	\$7.50	\$14.50	\$16.50	\$27.50	\$30.50	\$44.00	\$83.50

(R) Rounded corners have 1/4" radius. If another radius size is wanted, contact us for details.

Special Foil Charge

\$50.20 (R) per item

Allow additional production time for special foils; please contact us for details. Holographic foils are available for an additional charge; contact us for details. See standard foil colors on page 16.

Die Charges

Single level recycled dies are included in the base price for foil stamping, ink with foil stamping, ink with blind embossing, and ink with foil embossing up to 7 square inches. Dies are not returned. Contact us for single or multilevel brass dies, if your image area exceeds the maximum square inches indicated above and/or appears in more than one position. Contact us for registration in combination with ink and any other process. Charges for dies vary according to the size and amount of detail in the design. Send artwork or a sample for a quote

Engraving

For engraving, contact us for details.

Special Order Stock

For special order stocks, contact us for details. Allow additional time for special order stocks.

Customer Supplied Stock

Check for correct stock size prior to placing your stock supplied order. Business Card stock must be supplied minimum size of 8 1/2" x 11". Supply a minimum of 10% overage per press run. All supplied stock should be sent freight paid. See "Customer Supplied Stock" pricing on the appropriate product pricing page.

Templates

Standard templates are available to assist you in creating print-ready files. Import or place templates in your document as a non-printing reference guide. Proof your files before submission. Templates are available on the "Help & Resources" tab on our website.

Typesyles

View a variety of typestyle choices for creating a unique custom image on page 50. Typesyles are also available on the "Help and Resources" tab online.

Logos

When your customer is looking for a simple design solution, help them enhance their stationery with our stock logos. View stock logos on the "Help & Resources" tab online.

Photos

Photos are not recommended in thermography or raised print. On all photographs, a copyright release form signed by the photographer must accompany the order.

Proofs

Digital proofs are provided at no charge on all online orders. Proofs on manual catalog orders are available for \$15.00 (R) each. For proofs that require typesetting and design, see "Art Charges" on page 19. This is NOT a press proof and is approximate color only. This proof should be used to evaluate copy, color breaks, and art/photo placement. Production time starts after proof approval. Printed press proofs are billed as actual orders of the minimum quantity less 10%.

Variable Data

If using variable text or data, see "Variable Data Guidelines" on page 168 for more information.

Rights to Promotion

Navitor® reserves the right to use all products in our advertising and displays unless specified in writing at the time of order.

GENERAL INFORMATION: Business Cards

Creating Your Files

Create one item sized correctly per document. (Placed graphics and text should be sized at 100%.)

Fonts:

Using your illustration program, convert all text “to curves” or “create outlines” in your files. Never use the stylization palette to bold, italicize, add drop shadow, or to put outline on your fonts. If you are using fonts not owned by Navitor, outlines must be created in an illustration program before submitting your artwork.

Margin Requirements:

Spot Color printing:

Business cards must be sent 1-up with at least 1/8" (.125") margin.

Full Color Process printing:

Business cards should have at least 1/8" (.125") margins.

Bleed Requirements:

1/8" (.125") should be allowed on all sides. Please make sure the text still maintains the required margin even when graphics bleed.

Color Requirements:

For any Adobe® Photoshop® file or placed (raster) image we accept a minimum resolution of 300 dpi, but we recommend 600 dpi for best quality.

Every element of the file must be colored with process CMYK colors (no RGB, indexed color, etc.). If RGB or other non-CMYK colors are used in your files, the necessary conversion to CMYK will change the appearance of the colors when we print, sometimes dramatically.

While we are often able to closely reproduce a spot PANTONE MATCHING SYSTEM® (PMS) ink using full color process, PMS spot colors and process colors are produced using different methods. Therefore, colors produced in full color will differ from PANTONE® spot colors, sometimes significantly. Please refer to the PANTONE COLOR BRIDGE® Plus Series for color conversions.

Printing Black vs. Black:

To ensure the best possible results, many print products should use printing black (C-80%, M-80%, Y-80%, K-95%) instead of 100% black. Use printing black for:

- Any raised print products; this ensures an optimal raised appearance
- Flat or raised print orders which include black in registration with other colors, heavy ink coverage, or lines thicker than 2 points

Enhanced Finishes File Setup

See page 167 for details.

Full Color Raised/Thermography Printing

Light skin tones, light colors, and low screen percentages will have a negative impact on the raised appearance of your product. For best raised printing results, we recommend that the Total Area Coverage be at 150% or higher. Total Area Coverage (TAC) is the total of the CMYK value of a color. For example, a card using a light blue color with a CMYK mix of 89, 10, 0, 0 has a TAC of 99%. This color will not work well with thermography because there is not enough ink coverage to hold thermography powder.

Spot Color Printing

Spot orders should be colored using the correct spot color swatch. You can create your own spot swatch or you can download and install our Swatch Library from our website. For PANTONE MATCHING SYSTEM® colors, it is best to use the PANTONE solid uncoated library that is already loaded within the program.

For any Adobe® Photoshop® file or placed (raster) image we accept a minimum resolution of 300 dpi, but we recommend 600 dpi for best quality. Black & White Bitmap Image Mode should be used unless screens are present, Grayscale Image Mode should be used if screens are present.

Swatch Library

Our Swatch Library can be installed on equipment that is running any Adobe product. This will give you access to all of our colors and their mix settings to ensure that we print exactly what you create. The instruction file will walk you through the process of setting up the file. The library and instructions for installation can be found under “Help and Resources” on our website.

Coloring your files for Spot Color Printing

Desired Ink Color	Name Your Color Swatch
Black.....	Black
Brown.....	Brown
Burgundy.....	Burgundy
Dark Blue.....	Dark Blue
Gray.....	Gray
Green.....	Green
Light Blue.....	Light Blue
Red.....	Red

Black & Foil.....	Black & Conversion
Black & Embossing.....	Black & Conversion

NOTE: Files will be used as is if not specified on your order blank.

*When using PANTONE® Spot Color Swatches in your file, they need to be named and colored the actual PANTONE® name and number being used to print your order.

PANTONE®, PMS and PANTONE MATCHING SYSTEM® are Pantone Inc.'s check-standard trademark for color reproduction and color reproduction materials.

Custom Options and Capabilities

Custom Sizes

Give us a call and you're on your way to creating a custom-sized piece.

Hole Drilling

Add pre-drilled holes to create binder inserts, easy-to-file marketing pieces, and other specialty uses.

Numbering

Perfect for raffles, keeping track of promotion quantity, and more, we offer consecutive numbering for virtually any need.

Perforating

Perforate anywhere on your project to create a functional, easy-to-separate marketing tool.

Scoring

Score your project for an accurate fold every time.

Shrink Wrapping

Shrink wrap orders in specific quantities for easy distribution.

Special Order Announcement Envelopes

Add personalization to your announcements with A-Style envelopes, including lined envelopes.

Special Order Papers

Many additional papers available in-house that are not shown in the catalog; contact us for more information. All Presentation Folder stocks are available for business card orders, too!

Typesetting/Special Artwork Services

Need a little extra help setting up your documents for print? Let our team of graphic artists help make your vision a reality. Contact us for details.
